108pcs Adjustable Microscope LED Ring Light

Using flow control switching power supply technology, small size, light weight, high efficiency, low heat, environmental protection,

Stable output, small ripple, long service life and other advantages.

Category: LED Ring Light (<https://bestamada.com/product-category/microscope-accessory/led-ring-light/>)

Description

Description

- > Use isolated constant current output to ensure the safe use of high-power LEDs
- > The drive circuit has over-temperature protection, short-circuit protection, long-life design, and high reliability
- > Can pass the safety test
- > The shell is made of high-grade aluminum alloy, which quickly dissipates heat.
- > Output voltage: white light 12V

 How can I help you?

- > Dimensions: Inner diameter: 41mm Outer diameter: 77mm Thickness: 28mm
- > Input voltage: AC110V-240V power: 10W
- > Working distance: 50mm-300mm can be continuously adjusted 10-100%
- > Φ3 LED light-emitting tube quantity: 108
- > Illumination: 80000LUX
- > Light color: regular white light 6500-8000K
