

#### Technical Parameter of nameplate engraver

Model | ET-FL20D

Laser Power | 20W (more option: 10w, 30w and 50w)

Laser Wavelength | 1064mm

Marking Size | 110x110mm (more option: 70x70mm and 200x200mm)

Marking Line Width | 0.01~0.1mm

Marking Depth | 0.01 ~5mm according to different material

Max. Marking Speed | 7,000mm/s

Power Supply | 220V/50Hz, 500W

Cooling Mode | Air cooled

Acceptable File | PLT, BMP, JPG, TIF, AI etc.

#### Features of fiber laser marking ET-FL20D

- 1) Markings exist forever and are not easy to wear or disappear.
- 2) ET-FL20D only takes very less cost during working period, but has very fast working speed. It is a high production output marking machine.
- 3) This is a maintenance free machine.
- 4) The service life of laser is over 100,000 hours.
- 5) It takes small footprint and low energy consumption.
- 6) Perfect quality of output beam.
