Description

3 In 1 Fiber Laser Cleaning Machine

Product Description

1. 3 In 1 fiber laser cleaning machine is in the solid surface to produce a mechanical resonance phenomenon, is the surface of the dirt layer or condensation debris.
2. The surface dirt layer is heated and expanded, so as to overcome the adsorption force of the basic material

to the dirt particles and the surface of the object is separated from the surface of the object.

3. Instant to make the dirt molecules evaporate, gasification or decomposition.

Product Features

- 1.One machine, bringing together three functions: welding, cleaning
- 2.High-efficiency cleaning, saving time, without grinding and non-contact.
- 3.The handheld cleaning head has a simple handheld structure and is easy to carry. Equipped with a touch screen, it is convenient to switch parameters during work and simplify the operation. Weight 0.75kg, light to use without fatigue.
- 4.Built-in high efficiency chiller, the whole machine has a compact structure and weighs only 160KG after packing with auto wire feeder.
- 5.It is easy to solve the environmental pollution problems caused by chemical cleaning without using any chemicals and cleaning liquids.

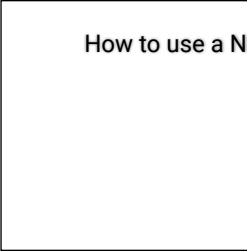

Product Specification

Laser System	RL-F1000	RL-F1500
Laser Type	1080nm Fiber Laser	
Laser Power	1000W	1500W
Cooling System	Water Cooling	
Laser source	GW 25um core diameter fiber laser	
Laser head	Dual Axis	
Speed range of welder	0~120 mm/s	
Focal Spot Diameter	0.5mm	
Ambient temperature range	10~40°C	

Environmental humidity range	<70% without condensation
Welding thickness	0.5-3mm
Welding gap requirements	≤1.2mm
Operating Voltage	220±10% V AC, 50/60Hz
Fiber length	Standard 10m, the longest customized

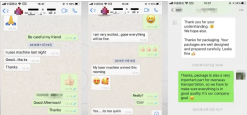

Video Description

Product Application
Our 3 In 1 fiber laser cleaning machine can be used car perimeter, rubber mold, heritage restoration, ship, environmental protection industry, others, rail transit, high-end machine tools Remove coating, degumming, lithographic surface treatment, oil removal, pretreatment, paint removal, rust removal,etc.

Customer Feedback

Exhibition

- Product Size & Packaging
- 1.The whole machine packing.
 - 2.Anti-collision packing edge.
 - 3.Fumigation-free plywood wooden box with iron

binding belt.

4.International standard
exporting wood case.

FAQ

1.What are the primary products of your company?

Our products include: laser cutting machine, laser marking machine, laser engraving machine, laser welding machine and so on.

2.What kind of files the software is compatible with for the 3 In 1 fiber laser cleaning machine?

JPEG, DWG, BMP, PLT, DST, DXF, AI, etc.

3.How about the machine guarantee?

We generally offer you 1 year guarantee.

4.How do you control your quality?

We'll test the machine and go through every corner to check the accuracy.

Machines will not be dispatched until running at least two days continuously to ensure quality.

5.How is the shipping method?

As per your actual address, we can effect shipment by sea, by air, by truck or railway. Also we can send the machine to your worksite as per your requirement.

6.How about your after-sales service?

We offer you 24 hours service phone,skype or whatsapp, our engineer also can go to door install or training.
