Item Details

3M™ Goggle Gear, 500-Series, Clear Scotchgard™ Anti-fog Lens resists fogging longer than traditional anti fog coatings, helping to keep vision clearer for workers on the job. The findings for the anti-fog performance of the eyewear are based on 3M internal testing per EN168 test method when compared to traditional anti-fog coatings.

Features

- → 3M[™] Scotchgard[™] Anti-Fog Coating lasts longer than traditional anti-fog coatings, helping to increase eyewear performance in wet and steamy environments
- Workers may enjoy reliable, clearer sight longer, because the coating with its active ingredient is bonded to the lens
- Coating retains its effectiveness for at least 25 washings with water, allowing workers to wear their eyewear longer
- Coating withstands disinfection with diluted bleach soaking or alcohol wipes without losing its anti-fog performance
- → 3M[™] Scotchgard[™] Anti-Fog Coated Eyewear meets the requirements of ANSI Z87.1 and CSA Z94.3
- Based on 3M internal testing per EN168 test method when compared to traditional anti-fog coatings

Applications

- Cleaning
- Facility Maintenance
- Grinding
- Remediation

- Chipping
- Chiseling
- Sawing
