## Air-Cooled Argon Laser Head

The Aries-2211 514-25 is a conventional style laser head incorporating a hard-sealed laser tube housed within a rigid chassis. A high flow axial fan provides quiet and efficient cooling of the laser tube. The Aries-2211 Laser Head operates with the state-of-the-art LPS-1300 Power Supply to which it attaches via a highly flexible interconnect cable. The Aries-2211 Laser Head is designed to replace JDSU™ 2211 series laser heads.
