

STELLAR-PRO SELECT 150

All-In-One Air-Cooled Argon Laser System with Integrated Manual Filter Wheel Module

With its hard-sealed laser tube, state-of-the-art power supply and filter wheel module all combined into a single package, the Stellar-Pro Select 150 laser brings size, performance and function together to form an extraordinary laser system. The unique design of this laser provides the ultimate in laser flexibility by allowing the user to manually select four different wavelength options. It's like having "Four Lasers in One".

Specifications

Selectable Argon Wavelengths	457.9nm, 488nm, 514.5nm and Multi-Line
Maximum Output Power	8mW @ 457.9nm, 40mW @ 488nm, 50mW @ 514.5nm and 150mW (total) Multi-Line
Beam Mode	TEM ₀₀
Beam Diameter (1/e ²)	0.65mm
Beam Divergence	0.95mrad
Beam Pointing Stability	<30 μ rad
Output Power Drift (after warm up)	< +/- 1%
Beam Amplitude Noise	<1% RMS
Polarization Ratio	>250:1
Warm-Up Time	5 Minutes
Line Voltage / Line Frequency	100VAC - 265VAC / 50Hz - 60Hz
Power Consumption	<1500 Watts
Weight (lbs / Kg)	14lbs / 6.4Kg (approx.)
