

Factory direct 20mm carbon steel fiber laser cutting machine cnc laser metal

Industrial Fiber Laser Cutting Machine 4000W

- #Working area : 1500*3000mm
- #Cypcut control system with computer
- #Original Raytools laser head
- #Original Raycus 4000W fiber laser generator
- #Working table: Serrate working platform
- #Japan FUJI servo motor and driver for X,Y
- #Taiwan APEX gear and rack
- #Taiwan TBI ball screw transmission
- #Taiwan HIWIN square guide rail
- #Japan SHIMPO reducer
- #Taiwan AirTag pneumatic components
- #Industrial water chiller

Parameters Standard Specifications :

Working Area	1500*3000mm
Fiber laser generator	4000W Raycus
Wavelength	1064nm
Cutting speed	0-15m/min(depending on material and thickness)
Positioning accuracy	±0.02mm
Repositioning accuracy	±0.01mm
Eauipeent power	16KW/18KW
Water cooling System	Constant temperature water chiller
Power supply	380V/3P/50Hz

Location system	Red dot indicator
Running Environment Temperature	-10°C~45°C
Machine Dimension	1800*3300*1600mm

BCAMCNC , a professional machinery manufacturing company, with 6000 square meters factory, a highly specialized workforce and more than 10 Patent Technologies has gained a global reputation as one of the most reliable and trusted CNC machinery solution providers.

BCAMCNC comprehensive in the production, design, manufacturing, trade and service of CNC machine like CNC Router, Laser cutting machine, Digital cutting table, Fiber laser cutting machine and Edge banding machine etc., Our wide variety products used in the field of Woodworking, Sign Making, Panel Furniture Production, Jewelry pieces, Packaging etc.

Overseas warehouse

BCAMCNC was established with the most discriminating customers in mind and has proven itself quality-wise by selling our products to over 90 countries worldwide successfully. For better service to our customer,BCAMCNC has already established sales & service branches in Shanghai,Dongguan,Wuhan and also foreign countries,such as armenia,UK,Germany,Dubai.
