

Consulting Profile of RA Fisher Associates

Dr. Robert A. Fisher provides expert consulting services to solve a wide variety of technical problems based upon his wide range of technical experiences and upon his detailed knowledge of laser-related phenomena.

Contact Dr. Robert A. Fisher for writing detailed reports, or writing proposals, reviewing speculative ideas, interpreting laboratory observations, resolving technical discrepancies, solving complex technical problems, developing sophisticated codes, and for a host of other services. Consulting client references are available upon request.

KEY WORDS FOR CURRENT CONSULTING ACTIVITIES

Atmospheric Propagation

Brillouin Scattering

Data Analysis

Data Processing

Dye Lasers

Feasibility Studies

Government Panels

Laser Engagements

Laser Optics

Laser Sensing

Laser Technology

Laser Sensor

Mathematical Modeling

Modern Optics

Nonlinear Optical Phase
Conjugation

Numerical modeling

Optical Communication

Optical Engagements

Optical Phase Conjugation

Optical Signals

Optical Systems

Optical Weapons

Optics

Phase Conjugation

Raman Scattering

Red Team Studies

Remote Sensing

SDI Study Panels

Signatures

Stimulated Brillouin
Scattering

Stimulated Raman Scattering

Tactical Laser Issues

Tunable Lasers

Wavefront Reversal
