

Optometrics

Global supplier of wavelength selection solutions,
optical components and sub-assemblies

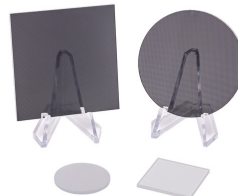

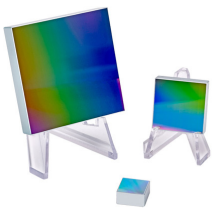

ABOUT

Optometrics is an ISO 9001:2015 certified global supplier of optical components and sub-assemblies developed through close collaboration with its customers. The company's core technologies include mechanical ruling, holographic recording, photolithography, and optical thin film coatings. It supports lean manufacturing practices, including Six Sigma methodologies and approaches to problem solving.

WAVELENGTH SELECTION SOLUTIONS

- Diffraction Gratings
- Mini-chrom Monochromators: Over 30,000 sold!
- Beamsplitters
- Wire Grid Polarizers
- Interference Filters

ISO 5 (CLASS 100) OPTO-MECHANICAL ASSEMBLY SPACE

- Increase cash flow ROI
- Streamline dock-to-floor logistics
- Simplify materials management
- Reduce internal effort
- Plug and play solution
