EPIC PRO™

Soft Tissue Management Redefined.

Introducing **Epic pro**

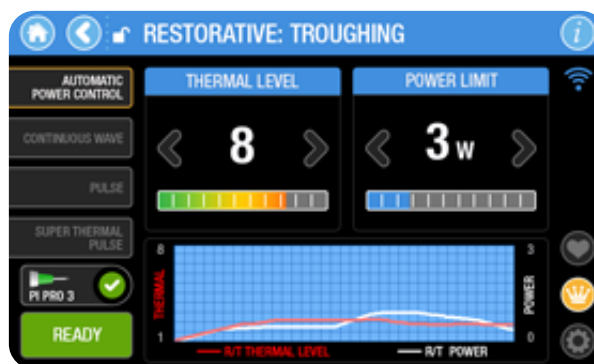

Epic Pro is Unlike Any Other Diode Laser.

Introducing the first advanced-grade diode laser in dentistry that offers more power and innovation than any diode on the market. Epic Pro monitors and measures the temperature of the laser tip for predictable, consistent results with every use.

The Only Laser with Automatic Power Control™

Epic Pro is the ONLY FDA-cleared laser with Automatic Power Control, an exclusive innovation from BIOLASE that enables the operator to lase with confidence and speed.

Your Role In The Practice

- ☐ Dentist
- ☐ Hygienist
- ☐ Office Manager

Read **[Reinventing Diode Laser Soft-Tissue Therapy Using Science and Technology](https://www.biolase.com/media/16-0677-WP-Technology_r1.pdf)** (https://www.biolase.com/media/16-0677-WP-Technology_r1.pdf) white paper (PDF)

Enhanced Clinical Applications

Epic Pro is the professional's choice for managing soft tissue cases. With over 20 clinical presets, multiple treatment modes, and an advanced mode for expert users, Epic Pro provides unparalleled consistency and predictability. Unlike traditional diodes, Epic Pro moves quickly and with little snag-and-drag resistance.

Greater Precision and Comfort

Epic Pro brings more precision and comfort than traditional diodes due to innovations such as Super Thermal Pulse mode, which can pulse energy as quickly as ten-millionths of a second, resulting in efficient clinical cutting with less thermal damage than normal diode lasers.

Introducing Smart Tip™ Technology

Epic Pro uses new durable tip technology, available in uninitiated and pre-initiated formats depending on your clinical needs. Epic Pro tips work hand in hand with the laser's Smart Tip technology to prompt you when a fresh tip is needed.

With Epic Pro, 'You Have to See It to Believe It'

If you are a current diode laser or CO2 laser user, you absolutely must see Epic Pro cut tissue live and compare it to your current laser experience. When current Epic Pro customers were first shown Epic Pro, the most commonly shared remark was, "You have to see it cut to understand how much faster it is."

Fill out the contact form on this page to request a live demonstration for Epic Pro in your clinic.

Technical Specifications

Dimension	7.25in (W) x 4.5in (L) x 6.5in (H) (18.4cm x 11.4cm x 16.5cm)
Weight	4 lbs (1.8 kg)
Operating Voltage	100V – 240V at 1.2A/0.5A
Frequency	50/60 Hz

Main Control	Power Switch
Remote Interruption	Remote Interlock
Disable Control	Emergency Stop Button
DC Power Supply Module	12V DC, 5A
Laser Classification	Class IV (4)
Medium	Semi-conductor diode
Wavelength*	940nm \pm 20nm or 980nm \pm 20nm
Power Modes	Continuous, Pulse Modulation
Max. Power Output	25 W (CW)/150 W (Pulse)
Fiber Tip Diameter	300 μ m, 400 μ m
Pulse Duration	10 μ m-100ms
Pulse Interval	0.01ms – 20ms
Pulse Repetition Rate	Up to 20kHz (for reference)
NOHD	4.77 meters
Beam Divergence	0.22
Standard Fiber Cable Length	6 feet (1.8 meters)

** Wavelength configuration varies by country. Please contact your BIOLASE representative for details.*

Epic Pro represents the first 'premium' diode laser from Biolase, with advanced features and capabilities for specialists and experienced laser dentists.
