

01 RED FLAG SERIES EXC-RL-Z01

Warranty

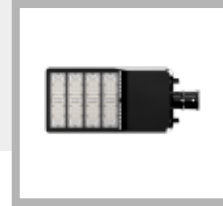

Energy Efficient

Waterproof IP66

High Efficiency

■ Product Description

- Use well-known brand waterproof isolation switching power supply with high safety and reliability.
- Integrated die-casting heat dissipation lamp body design, excellent heat dissipation and long life.
- The outdoor electrostatic spraying process on the surface of the lamp body has strong corrosion resistance and weather resistance, and is suitable for various complex environments.
- The lens adopts high-quality imported optical-grade materials, with accurate light distribution, high efficiency and strong weather resistance.
- Various light distribution angles, suitable for various lighting applications.
- 3Pin/7Pin NEMA optional;
- Electric protection class: Class I
