FLUORESCENT FIBER

Optimized for Brightness

Nanoptics manufactures the brightest, most flexible and most crack-resistant fluorescent fiber in the industry. We offer a selection of fibers in a variety of colors and diameters. Fibers can be provided on spools or cut to custom lengths. Available in standard meter lengths, or uncut on spools, our fiber can also be ordered with custom specifications. This includes cut lengths from 1" to 60", diameters from 0.004" up to 0.160", and special dyes. Our vivid colors are optimized for brightness when using lengths from half an inch to greater than 60 inches.

FIBER TYPES

Nanoptics offers multiple fiber types to match your needs:
