连接二氧化碳气柱 COLUMN THE CO₂ GAS

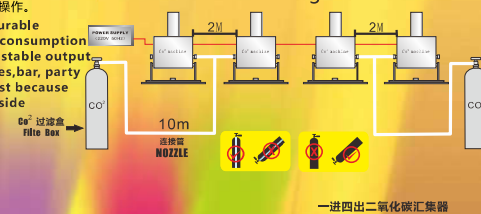

12颗10瓦RGB-LED,使得喷出来的烟不单单是白色而是无限彩色,首创透明喷嘴喷出来的烟更为逼真更有质感,一套2组,每台手拉手的接法,喷嘴角度随意调节,安装起来更为方便快捷,严重建议使用我司提供的气瓶,因为我的气瓶是特制的是立着使用的,而外面买的要躺着使用的很浪费地方和不好操作。

LED co2 jet machine equipped with 12 pcs 10W RGB LED . Using quality durable magnetic valve, stable and reliable anti-jamming circuit design . Low co2 consumption and quiet design, One set has 2 groups, per group has 2 pieces. 180° adjustable output angle, convenient to operate via DMX, suitable for all kinds of large venues, bar, party and performances. We strongly suggest clients to use our gas cylinder just because our cylinder operates with a standing way, all the other cylinder from outside companies need to be lied down to operate and which occupies space.
