

## Forensic Alternate LED Light Source OR-GYD10/50/70

The flashlight uses imported high brightness LED light source, aviation aluminum alloy shell and high-performance lithium-ion batteries. It has a hidden type sealing ring, enabling it waterproof, compression resistant and shock proof. Convenient charging, no memory effect.

### Main parameters:

1. Power: white light: 3W
2. Lithium-ion battery: 3.7V 2,200mAh
3. Light spot size at 0.5 m: 24 cm in diameter
4. Continuous working time: More than 3 hrs
5. Adopting projector-type optical principle: uniform lighting, wide projection
6. Uniform light spot output, without chromatic aberration or light streaks.
7. A single button controls strong and low light as well as switch
8. Dimension: diameter of cylinder: 30 mm, total length: 165mm
9. Weight: 0.21kg

### OR-GYD10: white light

It can replace by below wavelengths:

White light: 8300K, White light: 3200K, Red: 625nm, Orange: 617nm, Green: 535nm, Blue: 465nm, Deep blue: 450nm, Yellow: 590nm, UV: 395nm, UV: 400nm, UV: 415nm.

### OR-GYD50:

The output wavelength:

White light: 8300k

red light: 625nm

Green light: 535nm

blue light: 450nm

UV light: 395nm

Aluminum alloy carrying case size:  $\leq 33*22*8.5$ cm

Weight:  $\leq 2.9$ kg (Contain the packaging)

OR-GYD50

### OR-GYD70:

The output wavelength:

White light: 8300k

red light: 625nm

Orange light: 617nm

Green light: 535nm

blue light: 450nm

UV light: 365nm

UV light: 395nm

Aluminum alloy carrying case size:  $\leq 42*22*8.5$ cm

OR-GYD70

Weight:  $\leq 3.2\text{kg}$  (Contain the packaging)

## Company profile

Hangzhou Hengli Electronic Technology Co., Ltd., established in 2002, is a professional manufacturer of lighting equipment for police and forensic light source, and it is a professional manufacturer integrating technology development, production and sales.

Since the foundation, the Company has developed ten series and more than ninety types professional lighting equipment and sources, including: forensic light source series, multi-band light source series, laser detection instrument, strong light search light series, strong light flashlight series, strong light working light series, (Portable light tower) lift-type strong light work light series, power-type lift working light series and forensic working light, etc.

Our company will has been committed to providing professional lighting, forensic light sources, laser light sources and crime scene investigation tools for public security departments of the government.
