Green Laser Module

520nm

532nm

Red Laser Module

Infrared Laser Module

Blue Laser Module

Product> 520nm

Introduction

Order

**Main Specifications:**

- Available wavelength: 520nm
- Size: dia.24mm x len.96mm
- Output power: 2mW
- Output aperture: dia.20mm
- Operating voltage: DC 3V
- Operating current: less than 60mA
- Standard operating distance: 50 meters
- Beam character: roundish but brightness not uniform
- Elliptic proportion: 1:1
- Divergence: 0.2mrad-0.4mrad
- Optics: glass lens both sides AR coated or Plastic lens
- Operating temperature: -10-+40 Celsius degree
- Storage temperature: -40-+80 Celsius degree
- Life time: more than 8000 hours
- Laser safety classification: class 2

**About**

- About Us
- Company honor

**Product**

- Green Laser Module
- Red Laser Module
- Infrared Laser Module
- Blue Laser Module

**Applications**

- Industrial Equipment
- Surveying Instrument
- Smart Home
- Medical Cosmetology
- Education & Office
- Outdoor Equipment
