## High-Load Linear Actuator

## Dynamic, High-Resolution Precision Drive with DC or Stepper Motor

## L-239

- High push/pull force to 300 N
- Travel range 52 mm (2")
- Minimum incremental motion $0.1 \mu \mathrm{~m}$
- Velocity to $50 \mathrm{~mm} / \mathrm{s}$
- Preloaded, low-friction ball screw

## Product overview

High-resolution high-load linear actuator. Stepper motor for high torque. Highly dynamic, closed-loop DC and BLDC motors for high velocities. Robust design for industrial environments.

## High-quality components

- Ground ball screws for high velocities.
- Stable bearing at shaft output reduces lateral forces on the pusher.
- Nonrotating tip for uniform motion prevents wobble, torque, and wear at the point of contact.
- Noncontact limit switches protect the mechanics. A direction-sensing reference switch supports automation applications.
- Optional on request and at additional charge: Increase of push/pull force to 1000 N .

## Application fields

Research. Automation. Optical alignment.

## Specifications

Connecting cables are not in the scope of delivery and must be ordered separately. Ask about customized versions.

Drawings / Images

L-239.50SD with stepper motor, dimensions in mm

L-239.50AD with ActiveDrive DC motor, dimensions in mm

L-239.033232 with DC motor and L-239.035232 with brushless DC motor, dimensions in mm

## Ordering Information

## L-239.50AD

High-load linear actuator, $31 \mathrm{~mm} \emptyset$ shaft, ActiveDrive DC motor, 52 mm travel range, 300 N push force, Hall effect limit switches

## L-239.50SD

High-load linear actuator, $31 \mathrm{~mm} \varnothing$ shaft, stepper motor, 52 mm travel range, 300 N push force, Hall effect limit switches

## L-239.033232

High-load linear actuator, $31 \mathrm{~mm} \emptyset$ shaft, DC motor, 52 mm travel range, 300 N push force, Hall effect limit switches

## L-239.035232

High-load linear actuator, $31 \mathrm{~mm} \emptyset$ shaft, brushless DC motor, 52 mm travel range, 300 N push force, Hall effect limit switches
