ENDOSCOPES

We manufacture the Portascope MK3.

The Portascope Kit is an effective instrument to allow inspection and examination of normally inaccessible areas.

Combines a distortion free optical system with high intensity halogen illumination to allow easy cavity wall inspections.

With a diameter of only 9.6mm and a working length of 320mm, a side viewing system and rechargeable battery pack that lasts up to 3 hours on a single charge, this kit ensures you can get the job done quickly and easily.

The portascope has been successfully selling to the local authorities, the cavity wall industry, dry rot industry, wall tie, automobile and police customs inspections, and many more, for over 20 years. The system has been enhanced and updated with a smaller diameter, with a more compact rechargeable battery pack and a stainless steel scope saver, included in each kit.

- 9.6mm diameter scope
- Insertion tube length of 355mm
- Working length to viewing aperture 320mm
- Stainless Steel Scope Saver
- Small Rechargeable Battery Pack
- Mains Battery Charger
- 90 Degree viewing direction
- Spare Lamp
- Spare Fuse
- Foam Lined Carry Case

To request a retail or re-seller price list, please email info@litetec.co.uk (mailto:info@litetec.co.uk) or contact us on 01702 540187

Re-sellers are offered an attractive pricing structure for multiple purchases
