Lu100 & Lu105

1.3 Megapixel USB 2.0 Camera

High Image Quality in Low Light Conditions

Lumenera's Lu100 and Lu105 series of megapixel cameras are designed to be used in a wide variety of industrial applications, particularly in low light conditions. With 1280×1024 resolution and on-board processing these cameras deliver outstanding image quality and value forindustrial and scientific imaging applications.

Captures Objects in High Speed Motion

Electronic Global Shutter provides capabilities similar to a mechanical shutter, allowing simultaneous integration of the entire pixel array, and then stopping exposure while image data is read out. Ideal for capturing objects in high-speed motion.

Live Stream and Still Image Capturing

Uncompressed images in live streaming video and still image capture are provided across a USB 2.0 digital interface. No framegrabber is required. Advanced camera control is available through a complete Software Developer's Kit, with sample code available to quickly integrate camera functions into OEM applications.

Customizational Form Factors

Hardware and software based synchronization trigger is provided standard. Camera models are offered in both enclosed (Lu100) and board-level (Lu105) form. Custom form factor (sizes) as well as color and monochrome camera models are available.

Application

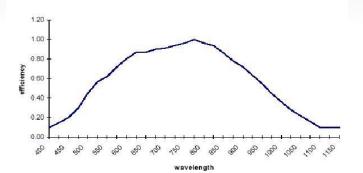

The Lumenera Camera SDK provides a full suite of features and functions that allow you to maximize the performance of your camera within your application. The SDK is compatible with all USB and GigE based cameras. Microsoft DirectX/DirectShow, Windows API and .NET API interfaces are provided allowing you the choice of application development environments from C/C++ to VB.NET or C#.NET. Full inline IntelliSense autocompletion and documentation is provided with the .NET API interface and is accompanied by a full API manual describing all the camera functions and properties.

Features

- Monochrome, progressive scan,1.3 megapixel sensor
- 5 fps at full 1280 x 1024 resolution
- 30 fps at 640 x 480 (sub-sampled)
- Stable, reliable camera drivers for running multiple cameras on a PC or other USB devices
- Full sub-window control
- Auto exposure
- Snapshot mode for use with strobe
- GPI/Os for control of peripherals and synchronization of lighting (4in/4out)
- FCC Class B, CE Ready
- Select 8 or 10-bit pixel data
- Simplified cabling video, power and full camera control over a single USB cable
- DirectShow compatible
- · C-mount provided
- Software compatible with Windows 10, Windows 8.1, Windows 7, Linux, 32 and 64bit operating systems
- Complete SDK available
- Four (4) year warranty

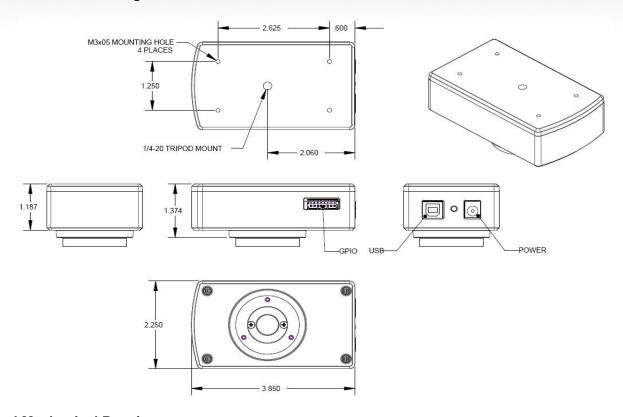

Monochrome Quantum Efficiency Curve

Sensor Specifications	
Image Sensor	Omnivision OV9121, CMOS, monochrome progressive scan
Optical Format	1/2"
Imager Size	Diagonal 8.46 mm
Pixel Size	5.2 x 5.2 um
Resolution	1280 x 1024 pixels
Camera Specifications	1200 X TOE I PINOIO
	15 fps @ 1280x1024, 30 fps @640x480 (sub-
Frame Rate	sampled)
Bit Depth	8 or 10-bits
Exposure Control	Automatic control
Exposure Range	64 us to 532 ms (video), 0.04 us to 2796 m (snapshot)
Gain Control	Manual and automatic control
Gain Range	1 to 8.0 X
White Balance	Automatic control
Camera Characteristics	
Sensitivity	1 V / Lux sec
Dynamic Range	60 dB
Mechanical Specifications	
Data Interface	Standard USB cable
Lens Mount	Adjustable C-mount standard, (CS-mount option)
Dimensions (HxWxD)	39.62 x 57.15 x 96.52 mm (enclosed) 1.56 x 2.25 x 3.8 inch (enclosed)
Mass	300 g (enclosed)
Operating Temperature	0 to 50 °C
Storage Temperature	-30 to 70 °C
Operating Humidity	0 to 95 %, non condensing
Chook / Vibration	EO a shook E a (2 to 200 Hz) vibration
Shock / Vibration	50 g shock, 5 g (2 to 200 Hz) vibration
Onboard Memory	Camera has onboard non-volatile memory storage
	Camera has onboard non-volatile memory storage
Onboard Memory Camera Software Operating Systems	Camera has onboard non-volatile memory storage Windows 10, Windows 8.1, Windows 7, Linux, 32 and 64-bit operating systems
