

CERES TECHNOLOGY ADVISORS

Merger & Acquisition Advisory with a Focus on Photonics

Meticulous planning and execution

LEARN MORE

CERES provides M & A advisory services to growth companies employing photonics to serve a wide range of markets

Sell Side M & A Advisory

Photonics technology businesses face market and technological uncertainty in complex ecosystems. Engage CERES' broad network and strategic insight on the sell side to realize maximum value.

Buy Side M & A Advisory

Great companies are scarce. There is an abundance of investment capital. M & A sales processes are competitive. Partner with CERES on the buy side for clarity of strategic direction and speed to action.

Business Valuation

CERES is highly specialized in valuation of businesses with core photonics technology. Whether privately or publicly owned, be smarter and better prepared for sale or acquisition with CERES on valuation.
