## Electro-Optical Characteristics

VCSEL Operating Temp (Tv) = 25 °C, Test condition: 100µs pulse width & 10% duty cycle unless otherwise noted. Die performance parameters require the VCSEL die to have adequate heat sinking and proper thermal management.

## 1. Electro-Optical Characteristics of photodiode only – not as sensor

Power monitoring photodiode (PMD) Operating Temp (Top) =25°C. Values are taken directly from the photodiode's datasheet and don't reflect its operation as a sensor in the integrated custom package.

Parameter	Symbol	Units	Minimum	Typical	Maximum	Notes
Reverse Dark Current		nA		0.5	6	VR=5V, Ee=0mW/cm <sup>2</sup>
Rise Time		ns		5	100	VR=10V, RL=50ohm
Fall Time		ns		5	100	
Passband Filter		nm FWHM	n.a.	n.a.	n.a.	No custom filter for photodiode
Responsivity (840 to 860 nm)		A/W	.25	.40		Note: only a fraction of the total VCSEL power will be re-directed to the photodiode
Reverse Breakdown Voltage		V	20	40		

## 2. Power Monitoring Diode Sensor Performance

Unless otherwise stated the Operating Temp (Top) =25°C for the sensor results. Sensor performance parameters are effective over the designated optical operating power (Lop) range listed in the section "electro-optical characteristics of VCSEL".

## Diffuser characteristics

Parameter	Symbol	Units	Diffuser Angle						Notes	
			72X58			60X45				
			Min	Typ	Max	Min	Typ	Max		
FOV aligned to short length of diffuser	FOVS	deg	--	58	--	--	45	--	FWHM defined by manufacturer	
FOV aligned to longer length of diffuser	FOVL	deg	--	72	--	--	60	--	FWHM defined by manufacturer	
Diffuser Uniformity	U	%	--	80	-	--	80	-	Note 2	
Diffuser Efficiency	%Eff	%	80	90	-	80	90	-	Total transmission efficiency without AR Coating	

**Note 2:** The uniformity is measured by projecting the VCSEL with diffuser onto a flat surface and capturing a high-resolution image of the beam profile. Over all the pixels in the eFOV on the image, the mean and standard deviation is calculated. The uniformity is calculated by dividing the difference of the mean and standard deviation by the mean. This is represented as a percentage.
