Services

Network Consultancy

FTI has over 35 years experience of networks for safety critical applications and provides Consultancy for: -

- Specification
- Design
- Equipment choice
- Implementation
- System Integration
- Test & Commission
- Verification
- Optimisation
- Performance Monitoring
- Network Audit

TDM (Non-IP) to IP Networks and optimisation of IP are specialities.

FTI is providing a migration path from TDM to IP, following the announcement of Telecom Providers withdrawing TDM Services.

For further information please contact FTI.
