- Superior image quality – Incorporating a new 1280 x 800 pixel sensor with 14 micron pixels. M-series offers variable user frame rate and resolution such as 1280 x 816 @ 4064 fps and light sensitivity enabling ISO 8000 for color or ISO 10'000 monochrome
- Recording Speeds from 1 fps to 85,300 fps at reduced ROI (model dependent)
- Extensive Memory Options – available with impressive memory sizes of 4 / 8 / 16 / 32 / 64 / 128 GB, for longer recordings.
- Software – The New Imaging Studio v4 SW offers a host of features for even the most demanding applications.
