Showing containers for a **round** optic with **10.000mm.** diameter, **1.000mm.** center thickness, **plano** top surface with **0.000mm.** chamfer width, and **plano** bottom surface with **0.000mm.** chamfer width.

OUR RECOMMENDED OPTICS PACKAGING CONTAINER ?

Please Note: All dimensions are nominal.

PART NUMBER: EW0.39-00000200

PRODUCT DESCRIPTION

Designed to hold thinner **round** optics. Providing tweezer/finger clearance in the base, and a wider range of variable edge thickness and variable diameter within a single container, this hold type is also the best solution for very small diameter optics and very thin optics.

- **Round** optics only
- **Finger/Tweezer Clearance** in base
- **Stackable** for shipping and storage
- **Overall height:** 19.658 mm. (with optic inside)
- **Outside diameter:** 69.850 mm.
