Platino

flexible, user-friendly and compact flat cutting machine with an excellent price/performance ratio.
Automatic management of materials and thicknesses.

PLATINO® is the general purpose 2D laser cutting machine by Prima Power utilized around the globe across a multitude of applications, manufacturing demands, and budgets.

PLATINO® cuts a broad range of materials and thicknesses with speed and precision without the need for manual adjustment. Change over to tube processing can be achieved with zero set-up time.

Available in two sizes (1530 and 2040) and with laser powers ranging from 2500 W to 5000 W, PLATINO® is suitable for every application.

Thanks to its wide range of automation modules, PLATINO® is the right solution for both small batches and large-scale production.

Highlights

compact design for minimum footprint and easy transportation and installation

synthetic granite frame for best thermal stability and vibration damping

maximum accessibility to the machine

CO2 laser up to 5,000 W manufactured by Prima

Electro: wide range of thicknesses from 0.5 to 25 mm

and the best efficiency for a CO2 laser

focusing head equipped with different lenses (5", 7.5"

or 9"), according to production needs

cartridge system for fast lens change and optional

automatic nozzle changer

- F-axis for controlling the focal position independently of the Z-axis
- SIPS (Safe Impact Protection System) protecting the machine head in case of collisions with workpieces or fixtures
- user-friendly and ergonomic P30L CNC with 17" LCD touch screen and trackball
- rotary axis for the processing of tubes and profiles
- wide range of modules for the automation of the material handling and storage

OUR BRANDS

When it comes to the quality of the finished product and the efficiency of the manufacturing process, having the right tools makes all the difference.

IMTS MACHINERY

Technical Excellence, Innovative Products

IMTS specialize in high-quality industrial laser and sheet metal equipment servicing Australia and New Zealand. Established in 1994, we saw a need for a talented service company to assist the sheet metal industry and, 20 years later, our commitment to after-sales service continues to be the cornerstone of our business.

NEWS

Success for Prima Power at EuroBLECH

Participating prominently in the EuroBLECH exhibitions and prior to that in BLECH since 1980's, Prima Power describes this year's event as the most successful one ever for the company.

"Compared with major exhibitions during the past few yea...
