#### Polarization Maintaining Couplers - 1x2 & 2x2, 1 X N & N X M

[Welcome](#)[The Company](#)[Technology](#)[Biophotonics](#)[Products](#)[Contact Us](#)[What's New](#)

Fibersense manufactures custom polarization maintaining couplers in many configurations and split ratios. Given our proprietary in house capabilities, devices can be manufactured with minimal loss and high extinction ratios in 1 X 2, 2 X 2, 1 X N, and N X M configurations. Fibersense can work with **any** PM fiber and can provide ruggedization and packaging to suit any environment and application. Please contact us for further details.
