## UV Equipment

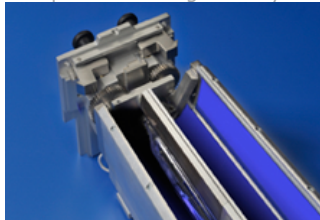

PureUV

PureUV is a UV lamp-head that blocks direct radiant from the substrate. High-purity radiation from across the entire UV spectrum is utilized while unwanted IR ranges are accurately filtered out. Direct radiant heat is prevented from reaching the substrate giving the option to run heat sensitive materials without damage.

### Features:

- Lamp house including quick-change cassette technology
- Elliptic reflector geometry

- Dichroic coated reflector sheets

- Arc length up to 2,600 mm
- Specific lamp power up to 240 W/cm (600 W/in)
- Optional barrier (water cooled) for IR reduction

Call **508 . 229 . 7774** for more information on our PureUV.
