PRODUCT OVERVIEW

Every manufacturer knows the risks of allowing packages or products to be manually assembled and visually inspected. This can result in missing or incorrect components in the assembled kit, unsealed products, and incorrect copy on printed labels.

FEATURES

- Intuitive interface with on-screen cues to streamline setup and project runs
- Import project data from CSV file or work order for match verification during inspection process
- Comprehensive reporting of all inspection types

INTEGRATION

- Standalone turnkey solution with optional configurability to meet unique requirements
- Off-the-shelf components for reliable and timely support

QUALITY ASSURANCE

- 21 CFR Part 11 ready; user control and digital signatures with audit trail
- Validation documentation (IQ/OQ-PQ assist)

TECHNICAL DATA

- All-in-One PC, Windows OS, PDF reporting (*touchscreen optional*)
- Utilize external server for additional storage capacity
- High precision checkweigher with attached stacklight providing audible and visual cues
- Handheld barcode readers (*wireless optional*)
