- ❖ Blue Laser Module

Product> 650nm

Introduction Order

Main Specifications:

- Available wavelength:635nm (652nm-670nm)
- Size: dia.16mm x len.45mm
- Output power: 2mW
- Output aperture: dia.6.8mm
- Operating voltage: DC 3V
- Operating current: less than 50mA
- Line thickness:less than 0.5mm at 0.5m or less than 1.5mm at 3m or less than 2mm at 6m
- Curvature: less than 1mm
- Fan angle: from 10°to 110°(fixed please advise)
- Divergence: 0.3mrad
- Optics: glass lens both sides AR coated
- Operating temperature: -10+40 Celsius degree
- Storage temperature: -40+80 Celsius degree
- Life time: more than 8000 hours
- Laser safety classification: Class 2
