## STEREO MICROSCOPES WITH LARGE STAGE

**VEE GEE Scientific VanGuard® 1300SL-Series Stereo Microscopes** features precision optics to ensure the highest level of performance for inspection and dissection. All models also come with upper and lower LED illumination to provide the brightest and most energy-efficient lighting available on the market.

Two different dual magnification configurations are available (1X & 3X, 2X & 4X) on binocular and trinocular heads which produce high-resolution, three-dimensional images. Various camera packages are available as options; including digital and video.

All models feature 10 Extra WideField eyepieces and are backed by 5-Year warranties. Optional eyepieces are available to customize any model for specific magnification requirements.

### KEY FEATURES

- Precision Optics
- Binocular and Trinocular Ports

- Upper & Lower LED Illumination
- Dual-Magnification
- Optional Eyepieces
- Mechanical Stage Option
