Type	sapphire window

 Custom Options Available

Description

Sapphire’s attributes include high mechanical strength, temperature stability, wear resistance and chemical inertness. As a result, a Sapphire Window will exceed other optical materials in harsh environments, providing a barrier between elements. Sapphire Windows are used commonly in optical and mechanical applications. Our offering includes a wide range of Sapphire Window stock parts as well as sapphire

window customization opportunities. Request more info on optical window applications.

NOT SEEING EXACTLY WHAT YOU NEED?

We at the Swiss Jewel Company specialize in creating a wide range of custom optical components and custom mechanical components including a variety of shapes - from internal holes and tapers to outer flanges, angles and surface finishes. Contact us and we will consult with you to create a custom component that meets all of your specifications.
