

Single Frequency Laser modules operating at 976nm, 14xx nm and 1550 nm

Main features include:

- Single frequency output
- Single mode fiber pigtailed
- Power: from 10 mW up to 200 mW
- Excellent wavelength and power stability
- Built-in temperature controller
- Built-in laser driver and safety interlock
- RS232 interface optional

Please contact us for detailed specifications.
