T9060

(<https://www.hsglaser.com/index.php?s=/sys/62.html>)

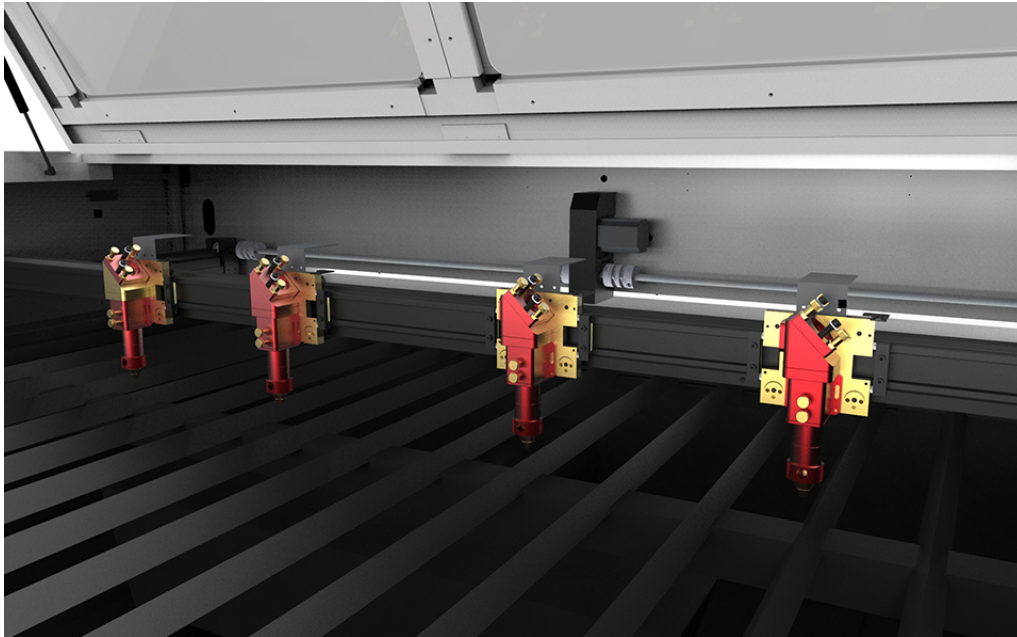

T9060

The T9060 fabric CO2 laser cutting machine is used cut various non-woven and cotton cloth and leather. The cutting is high quality, and highly efficient and highly precise with no burned edge. We can customize the processing width at 800mm×1000mm, 1600mm*1000mm, and 600mm×400mm.

Offline

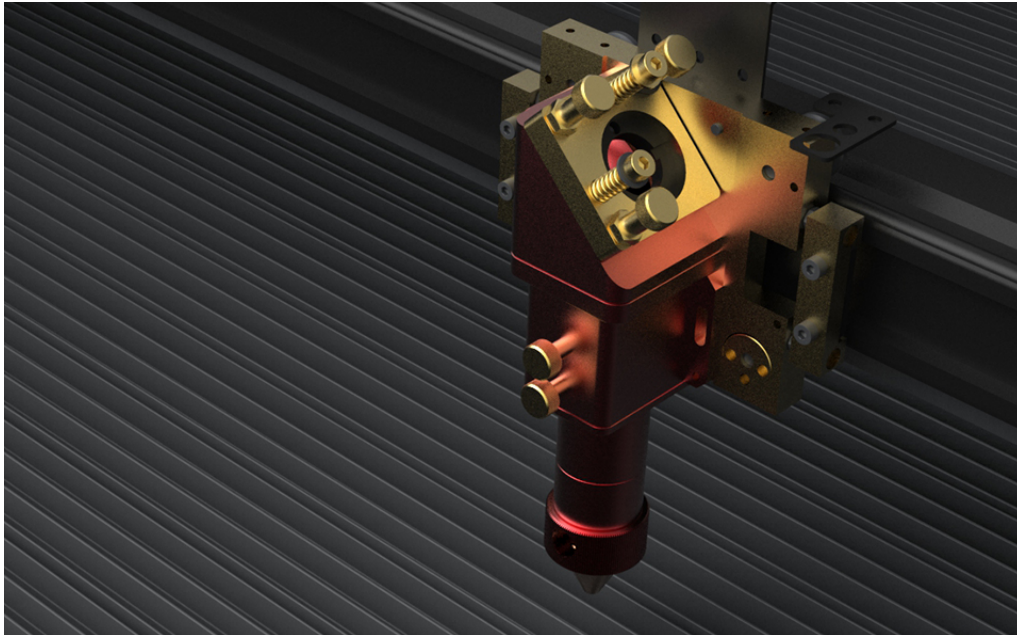

Laser Heads Optional

In order to make the cutting of fabric and leather more efficient, the machine can be equipped with a maximum of 4 laser heads.

Movable Work Table Optional

Users can choose a mobile platform for more convenient material loading and unloading.

Positioning Frame upper Blowing System

We also offer auxiliary equipment with a variety of functions, including panoramic cameras, lift platforms, and more laser heads for customers to choose from to improve working efficiency based on their specific requirements.

Full-view Camera

Optional installation of the panoramic camera and automatic feeding device automatically achieves typesetting and saves material.

PERFORMANCE INDEX

| | |
|-----------------|-------------|
| Processing Area | 900mmX600mm |
|-----------------|-------------|

| | |
|-----------------------------------|------------------|
| Max. Running Speed | 36m/min |
| Max. Engraving speed | 48m/min |
| Max. accelerated Speed | 0.5G |
| X/Y Repeated Positioning Accuracy | ±0.1mm |
| Whole machine weight | 250kg |
| Laser power | 60-150W |
| Machine dimensions | 1480*1140*1150mm |
