Overview

Stran Technologies is an original manufacturer of the TFOCA GenX Cable Assemblies. Our assemblies are designed and tested per the rigorous quality standards of all products we sell. Due to significant cable assembly combinations, we are able to list only a few of our popular TFOCA GenX cable assembly product offerings. Please contact us for supporting your custom tactical fiber optic cable assembly design requirements.

*TFOCA GenX connector assemblies at Strantech are fully compatible with TFOCA-II® connectors.
