## UV Equipment

### UVATEC

The UVATEC range consists of a series of high intensity UV-systems for rapid, reliable disinfection of surfaces. With CAD-optimized reflector geometry, this product produces the highest irradiance possible, which ensures great inactivation rates even for highly resistant micro-organisms. The irradiation times required do not exceed 0.5 seconds.

#### Features:

- Integrated shutter system with pneumatic drive
- Specific lamp output of up to 236 W/cm
- Power steps or continuously variable power control from 50-100%
- Stainless steel switch cabinet available
- Splash proof housing made of stainless steel corresponding to the IP65 standards (optional: IP67)
- High-performance UV lamp with low ozone output in arc lengths from 100 to 1750 mm

For more information on our UVATEC, call **508 . 229 . 7774**.
