Redefine the Dental Experience for Your Patients!

Waterlase iPlus is the market's best-selling all-tissue laser... This minimally invasive dental laser system features expanded and enhanced capabilities such as the SureFire delivery system and REPAIR protocols on board to help you give your

patients the best possible experience and give your practice an opportunity for practice growth.

Waterlase also features up to 10 W of power, and dozens of procedural pre-sets and an easy-to-use interface to simplify a procedure for dental professionals.

Resolve Daily Clinical Challenges

Every day, you face numerous clinical challenges – from controlling bleeding, managing impinged tissue, accessing decay in tough-to-reach proximal surface. Fortunately, Waterlase iPlus offers you complete versatility across all tissue types.
