

X Ray Shielding Fiber Optic Plate

material : lead free

Stray Light Control with EMA

Collimated Transmission at 550nm 73%

Coefficient of Thermal Expansion($\times 10^{-7}/\text{k}$) 88

available size 140x140mm

single fiber diameter 4 μm -6 μm -12 μm

Numerical Aperture 1.0

core cladding 70/30 80/20

Application NDT, Medical imaging, intraoral(dental) sensors
