

Connecting the World at the Speed of Light

Optical Transmitters

Technical data on request

Broadband Transmitters

Externally modulated 1550 nm optical CATV transmitters

- Electrical to optical conversion of multichannel CATV signals e.g. AM-VSB, FM and QAM signals
- Based on state-of-the-art LiNbO3-modulator-technology
- Excellent transmission performance in point-to-multipoint networks with > 100km reach
- Optimized for large scale HFC and FTTx networks up to 1 GHz

19" Stand-Alone Units

ES10XL

BK Series

BET10XL

2G6 Series

ET10XL-FA

Externally Modulated 1550 nm Optical Transmitter (DOCSIS 3.1 compliant)

- Electrical to optical conversion of multichannel CATV signals e.g. AM-VSB, FM and QAM signals
- Based on state-of-the-art LiNbO3-modulator-technology
- Excellent transmission performance in point-to-multipoint networks with up to 100 km reach
- Optimized for large scale FTTx networks RF bandwidth up to 1.218 GHz

19" Stand-Alone Units

ESxE12XL

DOCSIS 3.1 compliant

Externally Modulated 1550 nm Optical CATV & SAT TV Transmitters

- Electrical to optical conversion of multichannel CATV signals e.g. AM-VSB, FM and QAM signals & additional SAT-IF signals for RF Video Overlay
- Based on state-of-the-art LiNbO3-modulator-technology
- Excellent transmission performance in point-to-multipoint networks with > 40 km reach
- Optimized for large scale FTTx networks RF bandwidth up to 2.8 GHz

19" Stand-Alone Units

ES28XL

BK Series

BET28XL

2G6 Series

ET28XL-FA

Directly Modulated 1550 nm Optical CATV Transmitter

- Electrical to optical conversion of multichannel CATV signals e.g. AM-VSB, FM and QAM signals & additional SAT-IF signals for RF Video Overlay
- High quality transmission in point-to-multipoint links up to 10 km
- Optimized for small and medium scale FTTH networks with RF bandwidth up to 2.8 GHz

19" Stand-Alone Units

DS28

BK Series

BOTS

2G6 Series

OTS

Directly Modulated Optical CATV Transmitter

Products

BOTC12

DOCSIS 3.1 compliant

DOCSIS 3.1 compliant

Contact

Do you have questions and would like a personal consultation?

You'll find us here

System Solutions:
FTTH / FTTx
RF Video overlay
RFoG
HFC
Headends
Profi SAT system

Products:
Optical transmitters
Optical amplifiers
Optical switches
Passive opt. components
Optical receiver

FTTx media converter
Headend equipment
Compact amplifier
Compact fiber nodes

Service & Support:
Network planning
Installation & commissioning
Repair
Training
