HNC 1500H CNC H beam cutting machine

DESCRIPTION

Chat with me ³

TECHNICAL SPECIFICATION

CNC H Beam sub-plate Cutting Machine

It uses servo drive system to ensure good moving stability and mechanical precision.

It uses current working piece as guide rail.

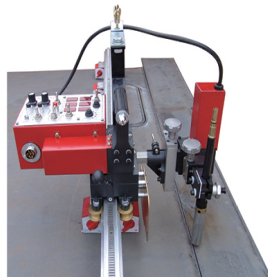

It can do any shape cutting with sub-plate of H beam steel, which is widely used for urban construction and cutting of iron art.

Model NO.	L×W×H (mm)	Cutting Width of H Beam (mm)	Voltage	No. of cutting torch set	Cutting Speed mm/min	Max no-Loading Speed mm/min
HNC-1500H	375X420X2170	≅ 1500	AC220V/50HZ	1	50-750	3000
