Details:

JNKEVO IPG JPT MAX RAYCUS 1kw 1.5kw 2kw Fiber Laser Welders

Features

High-efficiency, good effect

Automation. Stable cleaning efficiency. No chemical cleaning fluid required.

Control system

Simple clear and concise interface. Easy to operate. Multiple parameters setting available. Easy to achieve the control for laser source and lens.

Real-time monitor cleaning quality

Real-time monitoring of cleaning effect. Precise cleaning, with accurate location, precise size and selective cleaning

Handheld cleaning head

Simple handheld structure, portable. Ergonomic design.

Easy to operate. Detachable flexible front end, achieve auto focus.

Without damage to parts matrix.

Accurate positioning without damage to parts matrix. Laser cleaning machine can clean the surface of very sensitive materials, such as aluminum, carbon, stainless steel, Carbon fiber reinforced polymer or coating material without damaging the material.

Eco and Environmental protection

High cleaning cleanliness. Precise cleaning, with accurate location. protect the surface of brittle materials. effectively clean up micron-level pollution particles. safe and environmental protection, no consumables. The laser cleaning machine does not use chemical cleaning fluid, thus avoiding the damage to the material caused by chemical corrosion.

Application

Hand Held Laser Cleaning Machine Rust Removal Cleaning Machines 1000 Watt is widely used in the shipbuilding industry, auto parts, rubber molds, high-end machine tools, tire molds, track, environmental protection industry, weapon equipment industry, nuclear power industry and other industries..

Product Parameters			
Fiber laser source	IPG/JPT/MAX/RAYCUS	Welding head	Wobble head / normal head
Pulse frequency	20Hz -500Hz	Water temperature	19°C
Laser working medium	Yb-doped fiber	Voltage	220V / 380V
Wavelength	1064nm	Optional	Handheld / automatic
Fiber cable length	10m (15m optional)	Cooling system	Air / Water cooling
Machine size	930x600x800mm	Machine weight	200kg
The machine can be customized according to your requirements !			

Send inquiry now

We can customize the product according to your requirement, please feel free to **CONTACT WITH US !**
