
Handheld Fiber Laser Cleaning Machine

◦ Product Features

- 1.High power fibre laser
- 2.Non-contact cleaning, no damage to parts
- 3.Achieving different positions, size selective cleaning
- 4.No chemical agents, no consumables, safe and environmental protection
- 5.Ruida cleaning system, which is easy to operate and stable with free maintenance

6. High cleaning efficiency, good quality and time saving

◦ Applicable materials

It is mainly used for cleaning aluminum, iron, stainless steel, copper, steel and other metals of the same material, as well as aluminum copper, stainless steel copper and other materials mixed cleaning.

◦ Applicable industries

It is widely used in shipbuilding, automobile, rubber mold, high-end machine tools and rail industries.

◦ Sample show

No damage to the mould base material

High efficiency and cost savings

High cleaning quality

Green, no consumables

Cleaning of the frame after welding

Brake pad fresh back cleaning

Selective removal

No substrate damage

- Technical parameter

MODEL	TSQ1000	TSQ1500	TSQ2000
Rated output power	1000W	1500W	2000W
Max output power	1000W	1500W	2000W
Output fiber length	1080 (±10nm)		
Cleaning width	0-150mm		
Voltage	220V±20V	220V/380V±20V	380V±20V
Indicator light	Red Light		
Cooling method	Water cooling		
Max pressure	10bar		
Total power	6KW	8KW	9.8KW
Working model	Continuous/modulation		
Working environment	Flat, no vibration and shock		
Working humidity (%)	< 70		
Operating temperature (°C)	10-40°C		
Size	138*86*146cm		
Weight	260kg

This is not the first time I buy machines from this plant. Good build quality and components. You can change the configuration at your discretion! I recommend.

The machine is efficient and fast. I only use 7%-10% power for most of the wood engraving. 30% for glass etching. Haven't tried it yet on colored metal and other materials. So far, this exceeds my expectations. Will buy a bigger one in the next few months. Customer support is excellent too. Video conference and remote assistance is what makes them a great supplier for clients in abroad like me.

👍 0

Very satisfied with the use of the results
