RALETED PRODUCT

safety enclosed fiber laser marker

JPT MOPA M7 Desktop laser marker

laser marking machine Accessory

APPLICATION

We have 12 years of laser equipment experience,Exported over 100 countries, CE、FDA、ISO9001 Certificated,if you have a need for laser marking and engraving,Cutomized Machines based on Your Needs

Handheld fiber laser marking machine. It is designed to solve the problem of laser marking of existing large parts. The size of th whole machine and the main computer box is small and convenient, which can be hand-held for operation, and can be used for laser marking of large mechanical parts in any direction. All items that are inconvenient to be marked on the machine, and those that are not easy to move, can be marked with a hand-held marking machine.

Fiber laser marking material

- 1、 All metal materials can be marked  
gold  
silver  
copper  
iron  
aluminum  
Stainless steel  
Alumina  
Electroplating, etc.
- 2、 Suitable for most non-metallic materials  
ABS  
ink  
nylon  
PVC, pp, pe  
epoxy resin, etc.

If you need to mark leather, wood, glass and other materials, it is recommended to use co2 and UV marking machines. For more information, please contact us and we will recommend suitable machines for you: info@bingyanlaser.com

Can be marked on the product: automatic encoding, printing serial number, batch number, date, barcode OR code, automatic jump number, etc

Application industry

machinery, industrial parts, hardware tools, automobiles, electronic communications, molds, jewelry, dag tags, metal cards, gift customization, packaging, etc.

## PARAMETERS

BY-GS FIBER LASER MARKING MACHINE			
Type	20W	30W	50W
Marking Area	110×110mm(4.3×4.3in)		
	150×150mm(5.9×5.9in)	Optional	
	175×175mm(6.9×6.9in)		
Working Area	200*200mm		
MaximumThickness	300mm(11.8in)@110×110mm		
	250mm(9.8in)@150×150mm		
	206mm(8.1in)@175×175mm		
Laser Type	RAYCUS / JPT / IPG		
Repetition Rate	20-80kHz@RAYCUS		
	1-400kHz@JPT		
	1.6-1000kHz@IPG		
Marking Speed	≤7m/s(275.6in/s)		
Engraving Depth	≤0.2mm(0.008in)	≤0.4mm(0.016in)	≤1mm(0.024in)
Minimum Line Width	0.01mm(0.0004in)Depends on material		
Minimum Character	0.2mm(0.008in) Depends on material		
Electrical Requirements	110V-240V/50Hz-60Hz (According to local electricity supply).		

Power consumption	500W	800W	1000W
Marking Interface	USB connection. Compatible with Windows XP/Vista/7/8/10.		
Communication Mode For Automation	TCP/IP,IO,RS232.		
Red Dot Pointer	Since the laser beam is invisible,the Red Dot Pointer allows you to have a visual reference for locating where the laser will fire.		

Product Advantages

- 1 : price: We have signed strategic cooperation agreements with major component manufacturers like (RAYCUS, JPT, DAVI, SINO-GALVO) , which enable us to offer more competitive prices.
  - 2: first-line accessory: JPT, MAX, IPG ,RAYCUS laser source with
  - 3: Two-year warranty; delivery to door, after-sales service: response to you within 12 hours
- After Warranty Service:Video technical support, Online support, Spare parts, Field maintenance and repair service

We are looking for worldwide distributors

- 1, Machine distributors(laser marking machine, laser cleaning machine, laser welding machine)
- 2. Accessory distributors(laser source, lens, rotary, etc.)

FAQ

- 1. Q: Are you a manufacturer or a trading company?  
A: We are a manufacturer established in 2010 ,now in Luoyang CN.  
welcome for factory inspection at any time.
- 2. Q: What should I do when something goes wrong with the laser?  
A: We offer a two-year warranty. In warranty, we will provide the broken items free of charge. Beyond the warranty period, we still provide maintenance service.
