Jewelry Welding Machine Description

- HJz-sshj100 / w150 is very small and can be placed on the desk, with integrated chiller and plug-in. Pe-w200 has beautiful appearance and high power. It can be used for spot welding of most metal materials. Integrated chiller, small size, plug in and use.
- The control panel is easy to operate.
- Basically no consumables and maintenance. In the case of replacement of xenon lamp, the normal service life is more than 10 years, and there is no after-sales problem.
- The left and right protective covers of the front processing area can be opened to complete not only jewelry welding. Customers can provide fixture lifting table as required.

The [Message us](#) / imported from Germany has high reflectivity, is not easy to be scratched and does not need maintenance. The crystal cavity used by other companies is easy to be scratched when it is used for a long time, especially when the crystal rod is cracked, resulting

in more maintenance costs.

- The left and right protective covers can ensure the brightness of the processing area.
- Blow nitrogen or argon to prevent the workpiece from oxidation and blackening. The blowing angle can be adjusted at will.

Condition	New
Usage	jewelry welding
Brand Name	HJZlaser
Pulse Width	15ms
Focal Spot Diameter	0.2-3.0mm
Certification	ce
After-sales Service Provided	Online support, Field installation, commissioning and training, Field maintenance and repair service, Video technical support
Laser Head Brand	RAYCUS
Guiderail Brand	RAYCUS
Weight (KG)	130 KG
Applicable Industries	Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction works , Energy & Mining, Food & Beverage Shops, Advertising Company
Local Service Location	None
Machinery	Provided

Test Report	
Marketing Type	New Product 2020
Core Components	Pressure vessel, Motor
Brand name	HJZ laser
Working area	750*1000mm
Package	Wooden
Laser wavelength	1064nm
Size of light spot	0.2-3.0mm
Max. Output Power	100W 200W
Place of Origin	Hubei, China
Single Pulse Energy	90J
Wavelength	1064nm
Dimensions	750*1000mm
Warranty	2 years
Laser Source	RAYCUS
