

CleanTech™ Laser Blaster Cabinet

Laser Blast Cabinet

The CleanTech™ Laser Blaster Cabinet is a self-contained, industrial laser cleaning machine. This system is the only laser cleaning machine in the world that incorporates the exclusive power of a fiber laser with a handheld laser-blasting head inside an enclosed 30" x 26" work area. This system is designed for precision, safety, and flexibility. It is the only laser blasting cabinet manufactured in compliance with FDA and OSHA regulatory compliance.

- Factory and on-site operator training
- Advanced customer training
- Designated customer service engineers
