

Laser Engraver Enclosure TE700 - Two Trees

Two Trees enclosure TE700 offers you an extra layer of safety during the making process.

Laser Protection: Two viewing windows, made of blue light filtering PC.

Top-Notch Safety: Observing the machine operating in a safer way.

Dust Isolation: Isolating 99% of the dust particles, odors, and noise during the cutting and engraving process.

Exhaust System: Using the principle of airflow, fresh air enters the hood through the air inlet and is then exhausted outwards through the diagonally positioned exhaust fan.

Double Windows: Dive into your favorite DIY works, LightBurn software using, laser engraving and cutting on your laser engraver machine with enclosure.

Foldable and Portable: Use comfortably, use everywhere.
