Laser Welding Machine With Working Table Desktop

FOB Reference Price Range USD: 6000-50000

Lead time: 5-10 working days

Payment Term: T/T;Alibaba trade assurance;West Union;Paypal;L/C.

Machine Size: 1150*760*1370mm

Machine Weight: 275KG

Brand: LXSHOW

Warranty: 2 years

LASER WELDING MACHINE

Fast and efficient Beautiful weld bead Simple operation

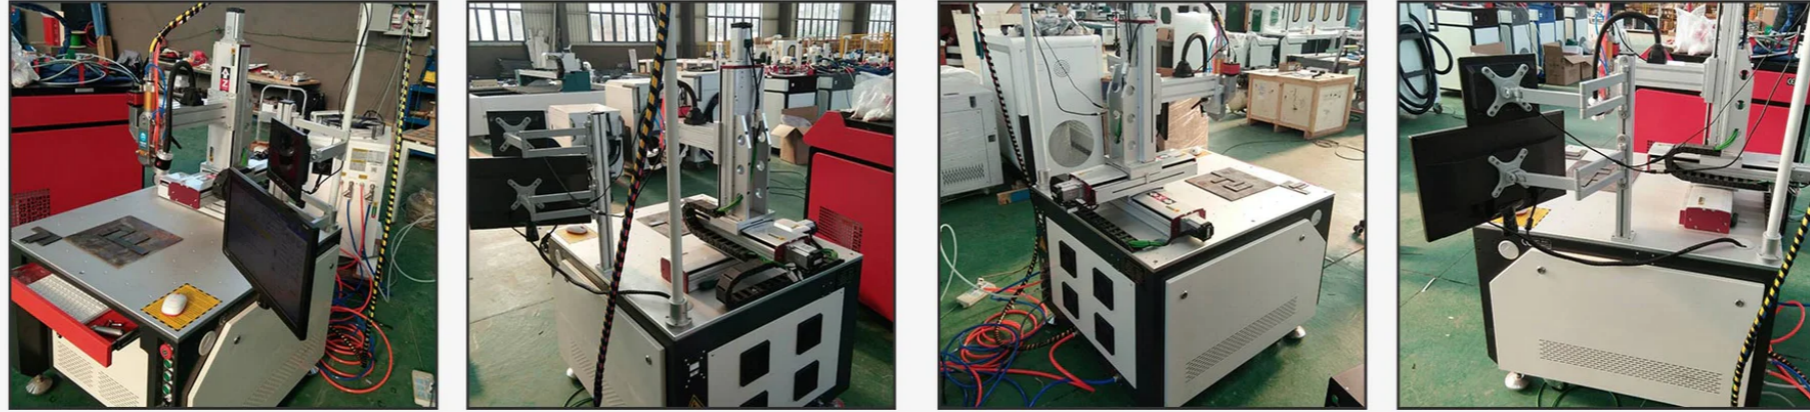

110cm * 120cm * 170cm / 450KG

PARAMETERS /

[more→](#)

Laser power	1000W-2000W
Laser wavelength	1064nm
Single pulse maximum energy	120J
Laser welding frequency	0HZ-200HZ
Laser welding depth	0.1-3.0mm
Pulse width	0.3-20ms
Spot size	0.2-2mm
Control system	Industrial computer
Aiming and positioning	CCD camera, red light indicator
Workbench stroke	300*300-1400*400

AI automatically generates titles

AI automatic generation Description: our company is located in areas with convenient transportation and developed economy. Our products are supplied in a timely manner. In the course of business operation, we always focus on customers.

 A grid of six circular icons representing product features:

- Simple operation (hand pointing icon)
- Servo motor (servo motor icon)
- Temperature check (thermometer icon)
- Quality Assurance (shield with checkmark icon)
- Stable operation (gauge icon)
- Welding easily (welding torch icon)

Low comprehensive cost of use Ultra-high reliability

- Excellent beam quality
- High photoelectric conversion efficiency
- Small size, easy to operate
- Work in harsh environments

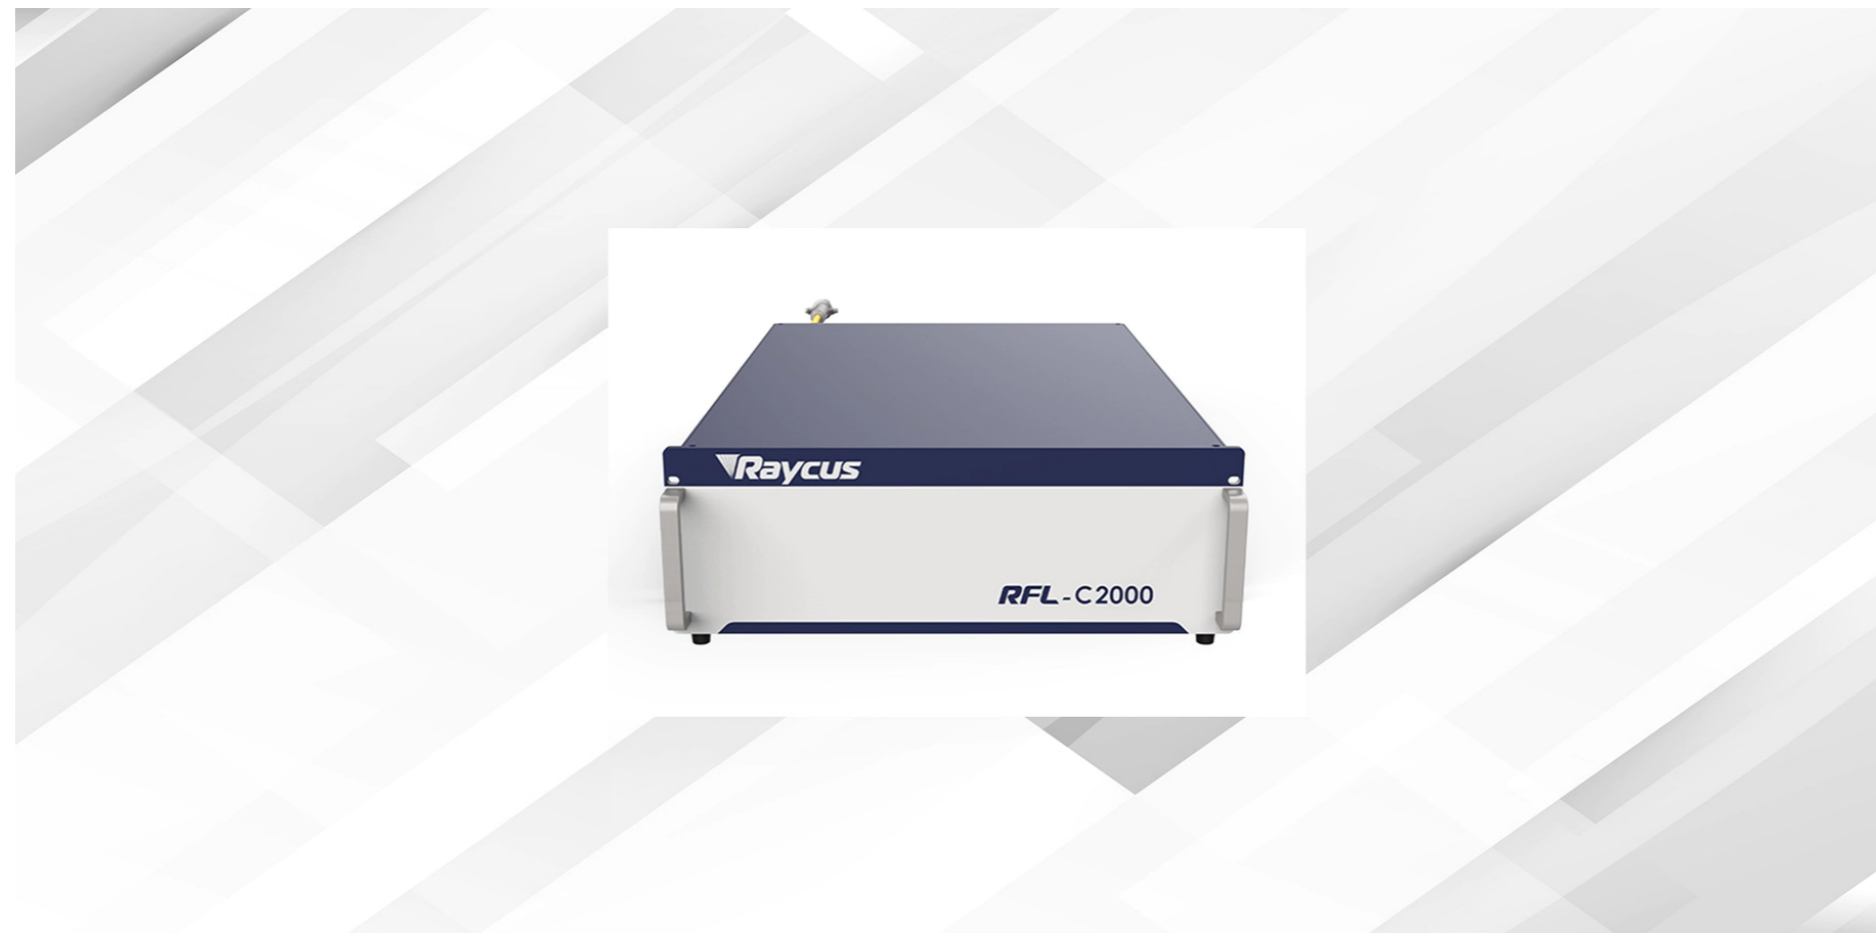

“Precision laser welding head”

Water-cooled, shielding gas integrated precision welding head
The spot is fine and stable, and the operation is convenient and simple

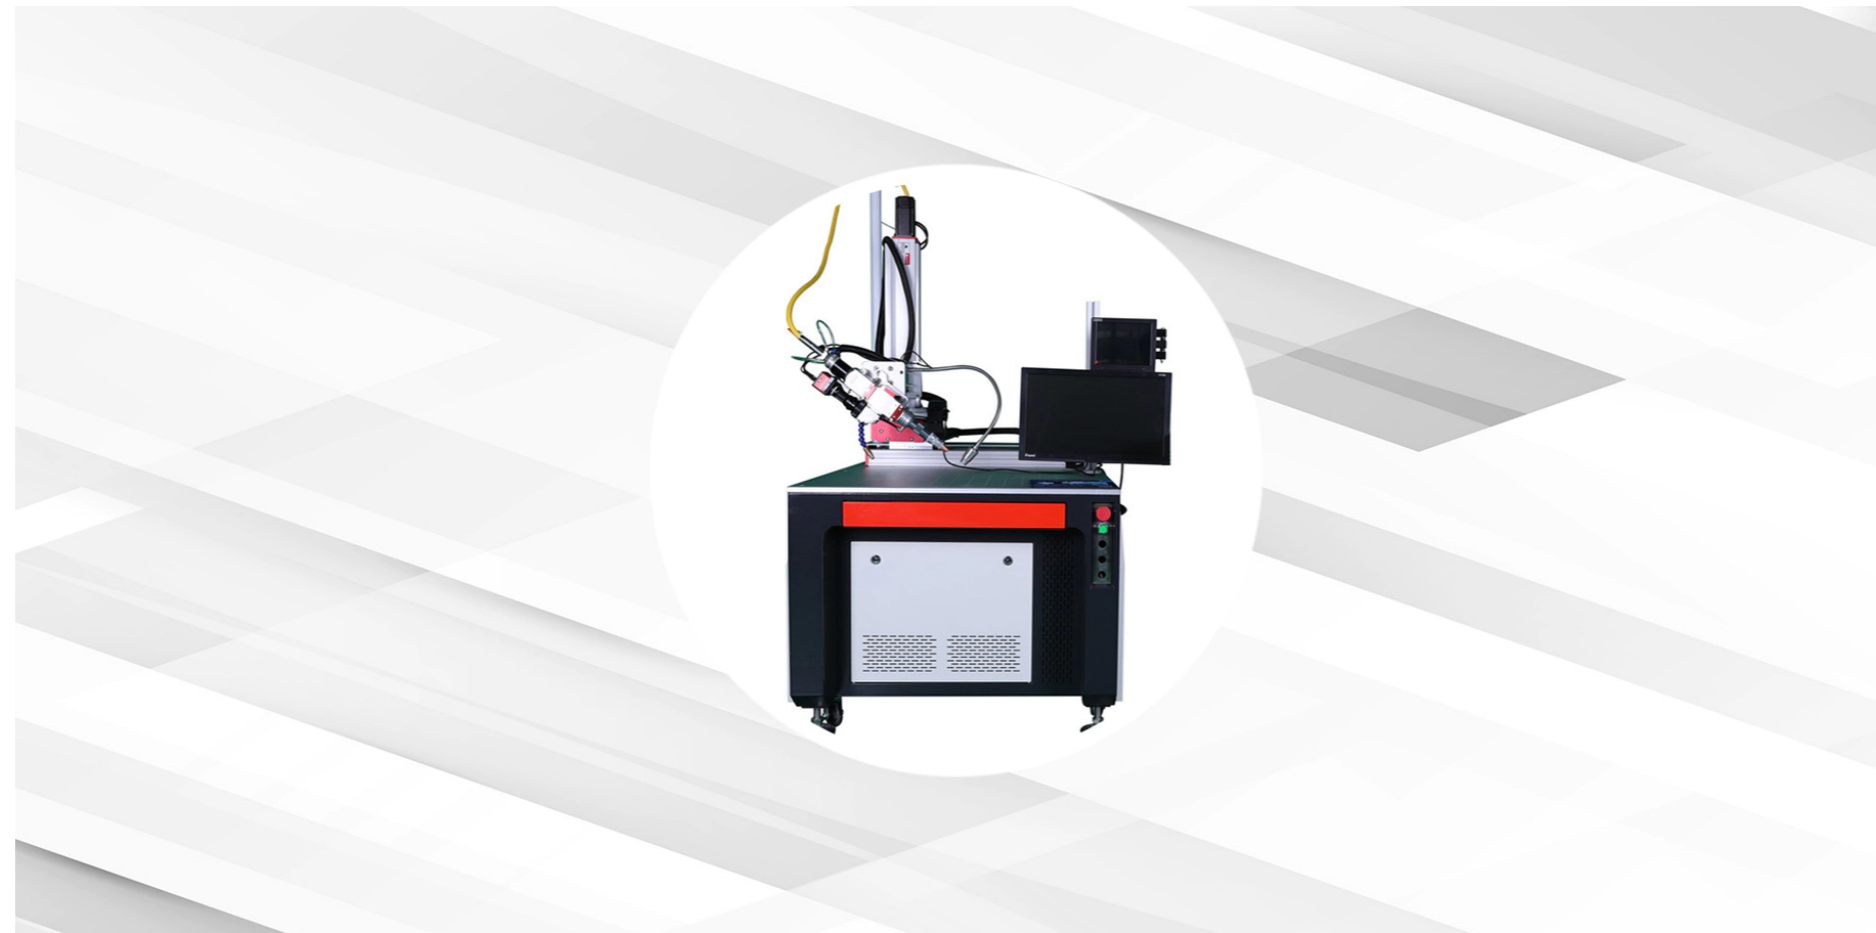

“Stable laser generator”

The laser has stable performance, reliable quality and long service life

“Stable body”

Servo motor drive, precision lead screw drive The welding process runs smoothly, the welding path is more accurate, and the welding effect is stable.

“Constant temperature chiller”

The air-conditioning compressor is used for cooling, providing constant temperature water cooling for the laser, so that the welding effect is more consistent and beautiful.
