

MeltView PIXI

Monitor welding and cladding when space is limited

Features

- **High quality image** of GTAW, LBW, SAW and PAW processes.
- **Automatic switching** between arc-on and arc-off modes
- **Small size (Ø 30mm/1.2")** with **directed optics** for easier integration
- **Camera displays direct to monitor** Simplest system on the market
- **1080p resolution, color and monochrome**
- **Lenses** for range of working distances and profiles
- **Range of transmission systems** (wireless, fiber, flex, off-the-shelf copper)
- **Integrated protection** including water cooling, temperature warning
- **Integrated lighting** provides clear image when welding is off
- **Operator control with specialist features**

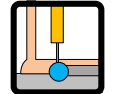

GTAW

PAW

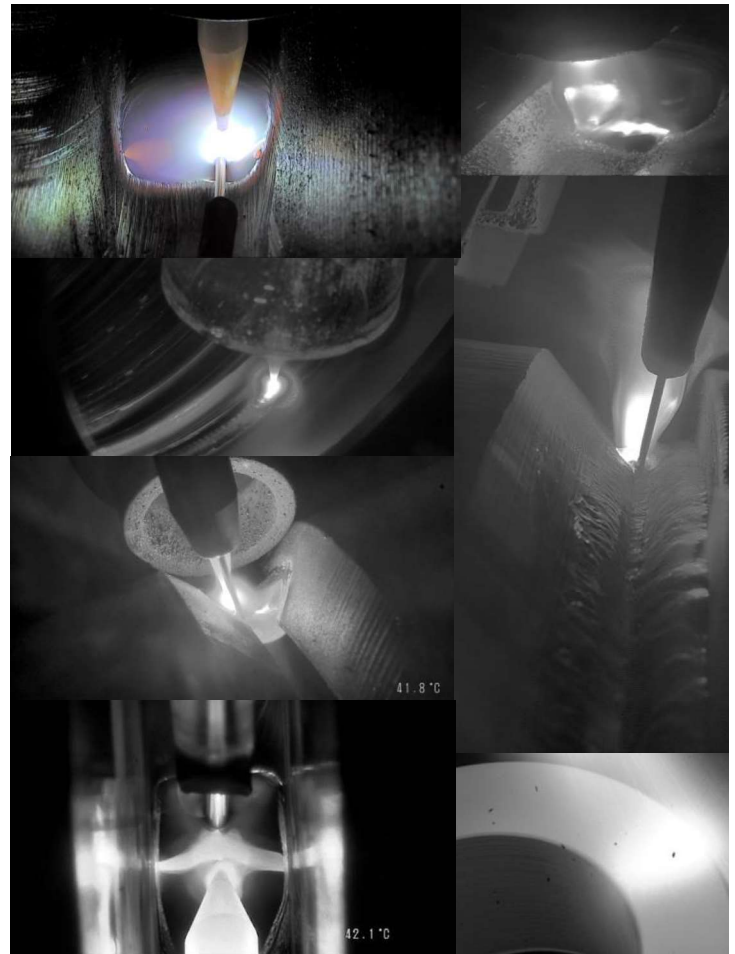

LBW

SAW

Applications

- Bore and pipe welding and cladding
- Orbital welding
- Narrow gap welding
- Seamer / strip and coil joiners
- Robotic TIG
- Specialist welding machines
- Column and boom
- Submerged arc systems
- Inspection (sealed, high temp, robotic)
