Mini Portable Easy Operation CNC Plasma Plate Cutting Machine with Hongyuda Height Control

Product Details:

Place of Origin: **China**
 Brand Name: **Metalwork**
 Certification: **CE, ISO, CCC**
 Model Number: **CNC1-1500**

Payment & Shipping Terms:

Minimum Order: **1 set**
 Quantity:
 Price: **Negotiable**
 Packaging Details: **Plywooden box**
 Delivery Time: **20 days**
 Payment Terms: **L/C, T/T**
 Supply Ability: **100 sets per month**

Detailed Product Description

CNC System:	Fangling	Plasma Source:	Hypertherm, Victor, Etc.
Height Controller:	Hongyuda	Nesting Software:	FastCAM, InteGNPS, Etc.
Color:	White, Red Or Customized	Warranty:	1 Year
High Light:	cnc steel cutting machine, plasma metal cutting machine		

Mini Portable Easy Operation CNC Plasma Plate Cutting Machine with Hongyuda Height Control

Application Scope and Material:

1. Hardly oxidized metal
2. Easily oxidized
3. Stainless steel
4. Brass, aluminum, and zinc

Machine Structure

Arc Voltage
Height Controller

Operation Panel

Rail Base

Flame Cutting Torch

Features:

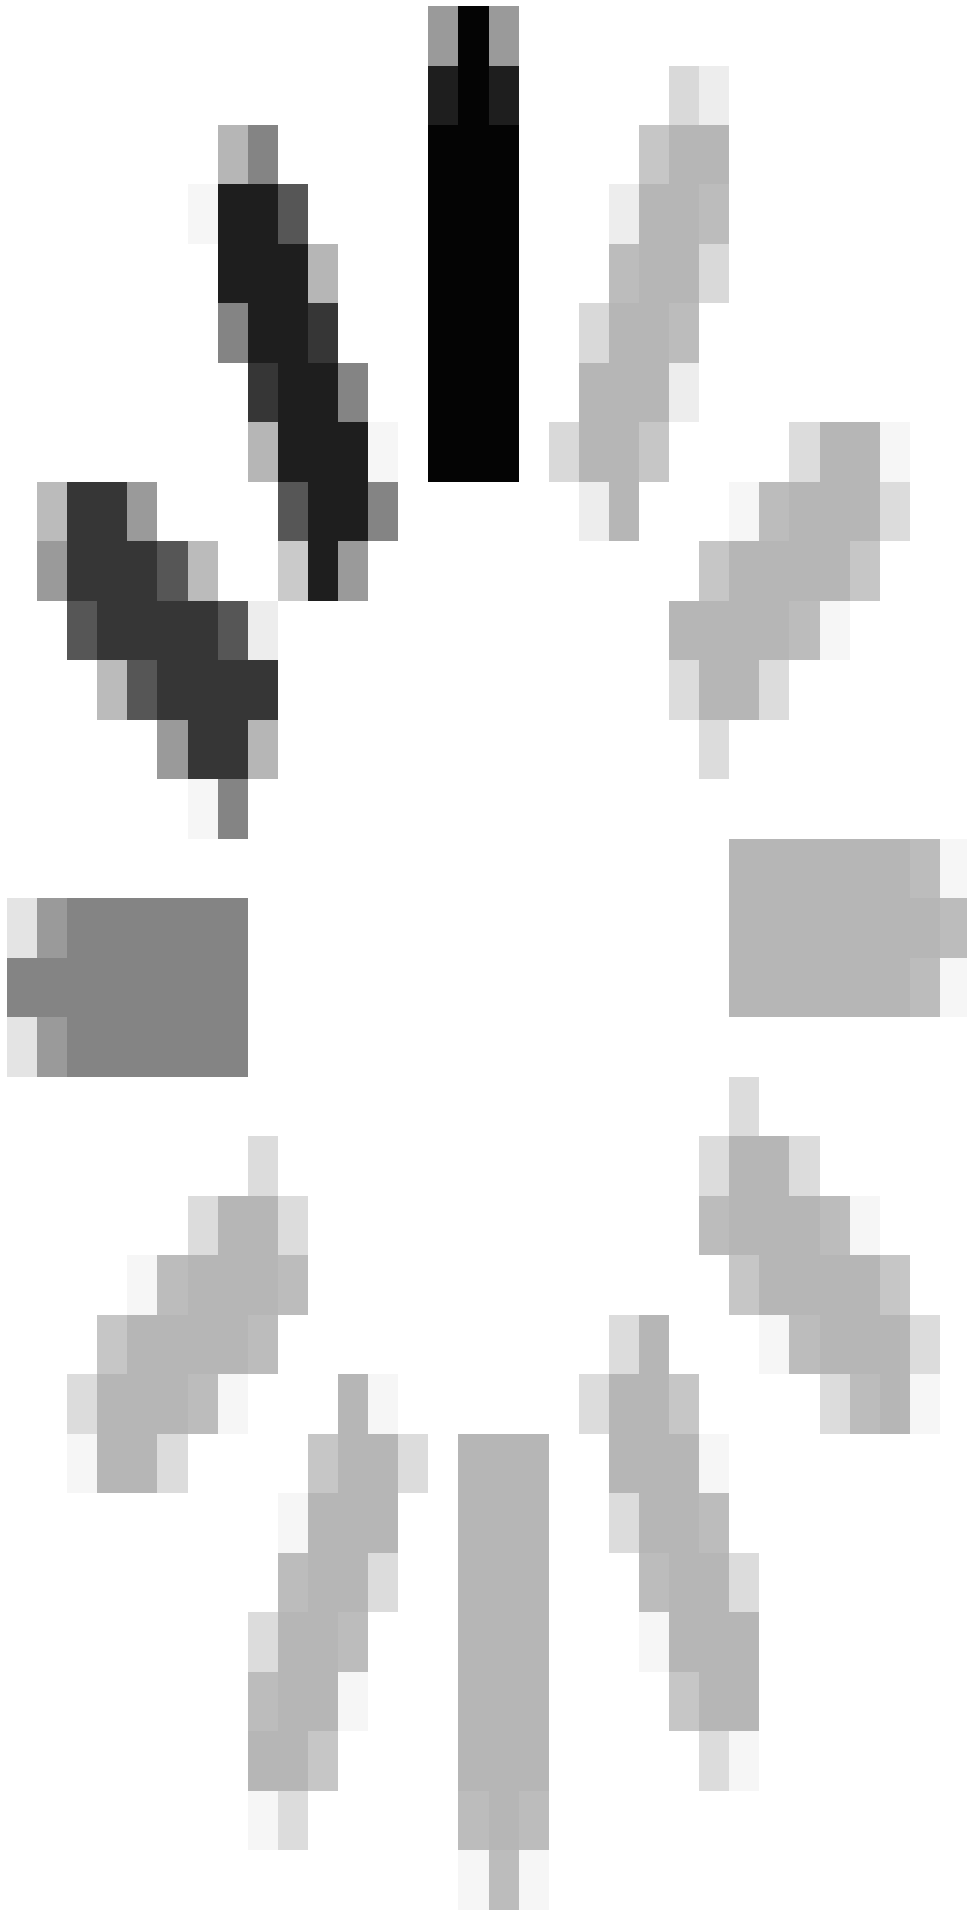

- The machine can be used for automatic cutting with 1200×2000mm and 1500×3000 cutting range or bigger range as customer's requirement.
- CNC Plasma Cutting Machine is automatic and high efficiency cutting equipment. CNC Plasma Cutting Machine is widely used in all kinds of carbon materials cutting, mild steel materials cutting and nonferrous metal precision sheet metal cutting.
- Cutting shape is diverse: you can cut any straight line and arc composed of most of the plane graphics. The slits are flat, the cutting accuracy is meet the national standards, and modeling finished product is beautiful and generous.
- Economy portable and random combination: the combination of installation, can be free to move as a whole, do not occupy a fixed place, saving processing site.
- Cutting thickness: suitable for the flame cutting thickness of within 120 mm, more than this thickness can be customized to meet your different processing needs.
- A variety of cutting methods: can choose a single flame cutting, single plasma cutting or flame plasma cutting, according to different processing materials to select the appropriate cutting method.
- Cutting precision: the use of seamless gear rack drive, stepper motor drive, Taiwan imported linear guide, the machine running smoothly, high precision.
- CNC programming: Based on AutoCAD, Perfect laser independent research and development of automatic graphical programming software, is easy to operate, stable and reliable.

Technical Parameters:

Model	CNC-1200 X 2000	CNC-1500 X 3000
Input Voltage	220V/110V	220V/110V
Power Supply Frequency	50HZ / 60HZ	50HZ / 60HZ
Rated Power Supply	180W	180W
LCD Dimension	5.7 Inches	5.7 Inches
Effective Cutting Width (X axis)	1200mm	1500mm
Effective Cutting Length (Y axis)	2000/3000/6000mm	3000/6000mm
Cutting Speed	0-2500mm per minute	0-2500mm per minute
Plasma Cutting Thickness	2--20mm (0.08"--0.79")	2--20mm (0.08"--0.79")
Flame Cutting Thickness	6--150mm (0.2"--5.9")	6--150mm (0.2"--5.9")
Emergency Stop Button	No	Yes
Free (Off) Button	No	Yes
Cross Beam Length	1700mm	2200mm
Longitudinal Rail Length	2500/4000/6000mm	4000/6000mm
Longitudinal Rail Width	196mm	345mm
Host Machine Dimension (L*W*H mm)	508*344*305	600*449*350
Cross Beam Weight	9.3kg	12kg
Host Machine Weight	26.7kg	30kg
Longitudinal Rail Weight	34.5kg	53.5kg
Total Weight	70.5kg (156 lbs)	95.5kg (211 lbs)
Gas Pressure	Max. 0.1Mpa (14.5 PSI)	Max. 0.1Mpa (14.5 PSI)
Oxygen Pressure	Max. 1.0Mpa (145 PSI)	Max. 1.0Mpa (145 PSI)
Cutting Gas	Acetylene/Propane/Methane	Acetylene/Propane/Methane
Plasma Power Source	THERMADYNE Cutmaster A120 / Hypertherm PowerMAX 105	THERMADYNE Cutmaster A120 / Hypertherm PowerMAX 105
Plasma Air	Only pressed Air	Only pressed Air
Plasma Air Pressure	Max. 0.8Mpa (116 PSI)	Max. 0.8Mpa (116 PSI)

Tag: cnc metal cutting machine, plasma metal cutting machine, cnc steel cutting machine
