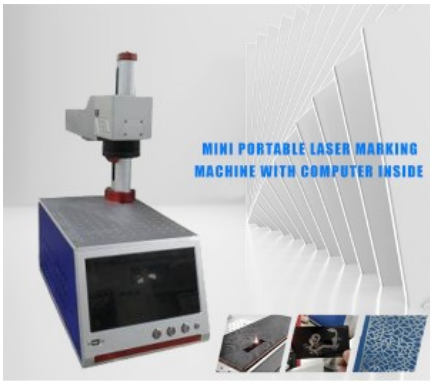
Mini portable Laser marking machine with computer inside



With its own computer all-in-one machine, more convenient operation and editing, no need to buy a separate computer, easy 360° free rotation, more flexible marking range, unlimited range, stable beam processing efficiency, automatic production of high precision work

Product parameters

Type	Intergrated computer Laser Marking Machine
Power	20W /30W
Laser Brand	Raycus (Maxphotonics/IPG Optional)
Marking Area	110mm*110mm
Optional Marking Area	110mm*110mm/150mm*150mm/200mm*200mm
Marking Depth	≤ 0.5mm
Marking Speed	7000mm/s

Minimum Line Width	0.012mm
Minimum Character	0.15mm
Repeated Precision	±0.003mm
Life-span of Fiber Laser Module	100 000hours
Beam Quality	M2 <1.5
Focus Spot Diameter	<0.01mm
Output Power of Laser	10%~100% continuously to be adjusted
System Operation Environment	Windows XP / W7--32/64bits / W8--32/64bits
Cooling Mode	Air cooling--Built-in
Temperature of Operation Environment	15℃~35℃
Power Input	220V / 50HZ / single phase or 110V / 60HZ / single phase
Power Requirement	<400W
Communication Interface	USB
Package Dimension	720mm x 460mm x 500mm
Gross weight	55KG
Optional (Not free of charge)	Rotary Device, Moving Table, other customized Automation

Product Advantages

1、New style, beautiful and generous appearance, comes with independent computer

2、For oversized products, rotating bracket can be adjusted to the right position for more flexible marking

3、When the marking surface is not horizontal, the tilt can be adjusted at will to ensure a more beautiful marking effect
