

Robotic Automatic Laser Cleaning Machine

DESCRIPTION

Robotic automatic laser cleaning machine has excellent beam quality, and has ideal cleaning effect for oil layer, rust, paint and oxide film layer.

PRODUCT DESCRIPTION

Production Introduction

Robotic automatic laser cleaning machine:

The automatic cleaning machine uses a pulsed laser, with excellent beam quality, and has an ideal cleaning effect for oil layers, rust, paint, and oxide film layers. Automated laser cleaning equipment can also use continuous fiber lasers to remove metal rust.

Robotic automatic laser cleaning machine:

The automatic cleaning machine uses an automatic robot, which is suitable for large-scale cleaning operations, saves time and effort, and can greatly improve work efficiency.

Production Parameters

Model	DPL-100W	DPL-200W	DPL-300W	DPL-500W
Average laser power	100W	200W	300W	500W
Beam quality	1.6	1.6	1.8	1.8
Laser wavelength	1070nm	1070nm	1070nm	1070nm
Pulse energy	1-100MJ	1-100MJ	1-100MJ	1-100MJ
Scan width	5-200mm	5-200mm	5-200mm	5-200mm
Focal length	100mm-500mm	100mm-500mm	100mm-500mm	100mm-500mm
