

CleanTech™ Titan Express

Titan Express Laser Cleaning System

Mid-Size – Powerful – Complete. The **CleanTech** Titan Express Laser Cleaning Machine is a midsize, high power, large format fiber laser cleaning and surface conditioning system with up to 4' x 4' working envelope. The industrial-grade full-featured laser cleaning system that fits within your floor space and your budget.

CleanTech Laser Systems offer a non-abrasive cleaning system that is safer, easier, and more eco-friendly than traditional methods of surface cleaning. Incorporating proprietary **Flexion Technology** allows CleanTech Systems to clean materials faster and more efficiently than other systems on the market. Flexion Technology offers a motion control stage that operates in both the X and Y-
